

**“A rich man may be wise in his own eyes, but a poor man who has discernment sees through him.”**  
(Proverbs 28:11)

The rich man is the person who has money and who think that he can solve all the problems with the money that he has. That is why he is wise with his own eyes because every decision he takes whether right or wrong will be backed up with his own money.

Many people they think also the same for they think that all their problems are due to lack of money and they think that if they will have the money then everything will be easy and under hand.

Don't think or look as such look to the life and the events around you. Money is not everything. The wisdom of God can replace the lack of money, or in other word money cannot replace the needs for God's wisdom.

**A rich man may be wise in his own eyes, but a poor man who has discernment sees through him:** The meaning of that is this: Wisdom can bridge the gap and the lack of material things.

To manage life and for taking and getting right decision for everyday life activities we need the wisdom of God and that what is called as discernment.

Discernment is to know what is right and to do it. If we will not know what to do then what we have of material things cannot bridge the gap. As well as with wisdom and discernment we can reach solution to bypass troubles and difficult situations of life.

Why it is like that? Because wisdom and discernment will only comes from God and the Lord do it in this way to make human realize that he cannot live without God. Material things and money might be important but God's wisdom and discernment are essential.
